Proposed Rule Chapter 1200-1-11 Changes

Draft Revision “x”

1. The name and acronym Conditionally Exempt Generator (CEG) should be used in Tennessee’s Hazardous Waste Rules instead of Conditionally Exempt Small Quantity Generator (CESQG) to give clear distinction between CESQGs and Small Quantity Generators (SQGs).
2. Rule 1200-1-11-.07(2)(c)3(i)(III) is being modified to require the applicant to also submit “documentation of the public notices” and delete the second sentence in (IV) regarding “upon request” since it is always requested by permit reviewers to verify that procedures have been followed.
3. Rule 1200-1-11-.08(5)(a)2(i)(III) requiring Conditionally Exempt Small Quantity Generators who violate any provision of Rule 1200-1-11-.02(1)(e)7 other than subpart (ii) to pay the Large Quantity Generator fees is being deleted.
